## PRESCRIPTION PANTRY PROGRAM

### How to Become a Prescription Pantry Program Participant

### Cómo convertirse en participante del Programa Despensa con Receta

**Prescription Pantry Program**, also known as the Rx Pantry Program, helps connect people managing chronic health conditions with nutritious foods. If you could use a little extra support, a provider at one of our healthcare partner organizations can write a food prescription just like they would for medicine. That prescription gives you regular access to nutritious foods at participating Rx Food Pantries.

**Programa Despensa con Receta**, también conocido como el programa Rx Pantry, ayuda a conectar a las personas que manejan condiciones crónicas de salud con alimentos nutritivos. Si podría beneficiarse de un poco de apoyo adicional, un proveedor en una de nuestras organizaciones de atención médica asociadas puede darle una receta de alimentos, tal como lo haría con un medicamento. Esa receta le brinda acceso regular a alimentos nutritivos en las despensas con receta participantes.

#### ✓ Getting started is simple!

Follow the steps below to become a Prescription Pantry Program participant.

**Schedule a visit with one of our Rx Pantry healthcare partners.** Start by making an appointment with a participating clinic or provider.

**Talk with your provider about the Rx Pantry Program.** If the program is a good fit for you, your provider can write you a food prescription during your visit.

**Bring your food prescription to any Rx Food Pantry.** Once you bring it in, you're officially enrolled and can begin receiving healthy foods.

**Renew your prescription once a year.** Simply check in with your healthcare provider annually to keep your benefits active.

#### ✓ Comenzar es fácil!
